

Example for Skeleton Foil

Sorry, it's in German; but the idea should be clear

Illustration

The original had a little hand colouring; the "markers" (the circles, stars, cartouches) had a specific colour and a specific meaning

● Circles denote headlines or are main topics

★ Stars are major points and facts

● Cartouches indicate actions:

- "Folie 1" means that here an illustrative viewgraph will be shown; after that this foil comes back
- "Muster" means that a specimen is passed around or held up to see.

Otherwise the speaker talks freely to the topics on the foil, following his own lead.
