## **Solution to Exercise 6.1-1**

- It's not so difficult. Just do it yourself.
  - Well, you may have a look at the very first international publication about this topic: M. G. A. Bernard, G. Duraffourg, <u>Laser Conditions in Semiconductors</u> (Physica Status Solidi, 1961).
  - How it came that such a fundamental result was published in a newly founded journal based in East Berlin and not in one of the highly ranked US American journals (which are the "usual suspects" in such a case) was revealed 51 years later by M. Bernard: <a href="https://doi.org/10.1001/journals-newly-fundamental-ne
